## Accelerate Your Cloud-First Strategy with OneLogin for Box

Trust OneLogin to take complete control over access to Box, provision and deprovision users in real-time, create and enforce security policies, and add a second factor of authentication. Box is a leader in leading Cloud Content Management platform that enables organizations to accelerate business processes, power workplace collaboration and protect their most valuable information, all while working with a best-of-breed enterprise IT stack. Together, OneLogin and Box give end-users an experience they love and IT the security and control it needs.

### OneLogin for Box Solution Highlights

Directory Integration

Single Sign-On (SSO)

User and Groups Provisioning

Multi-Factor Authentication

### Strengthen Your Identity Strategy With These Benefits

#### Protect Access to Box and All Apps

Box hosts a variety of data across your organization. Secure access and accelerate user adoption by allowing employees to use their master credentials to log into Box and all their corporate SaaS applications.

#### Eliminate Deployment Complexity

Leverage OneLogin's pre-built integration and powerful mappings and rules engine to automate the deployment process for Box. Spend less time on manual entry and more time on other IT initiatives.

#### Advanced Security and Scalability

Rest easy with redundant data centers in the US and Europe, massive scalable infrastructure, quarterly security reviews by iSEC partners, and 24/7 monitoring. 99.9% Uptime Guarantee.

#### Decrease IT Operations and Support Costs

Free up IT time and resources with built-in self-service password reset and automated user provisioning and deprovisioning based on user's directory attributes or security groups originating from your corporate directory.

#### Customize Security Controls

Create and enforce customized security policies such as multi-factor authentication, password complexity, session timeout, and more. Easily map those policies based on user attributes or other identifiers such as IP address.

Over 2,000 enterprise customers globally secure their applications with OneLogin

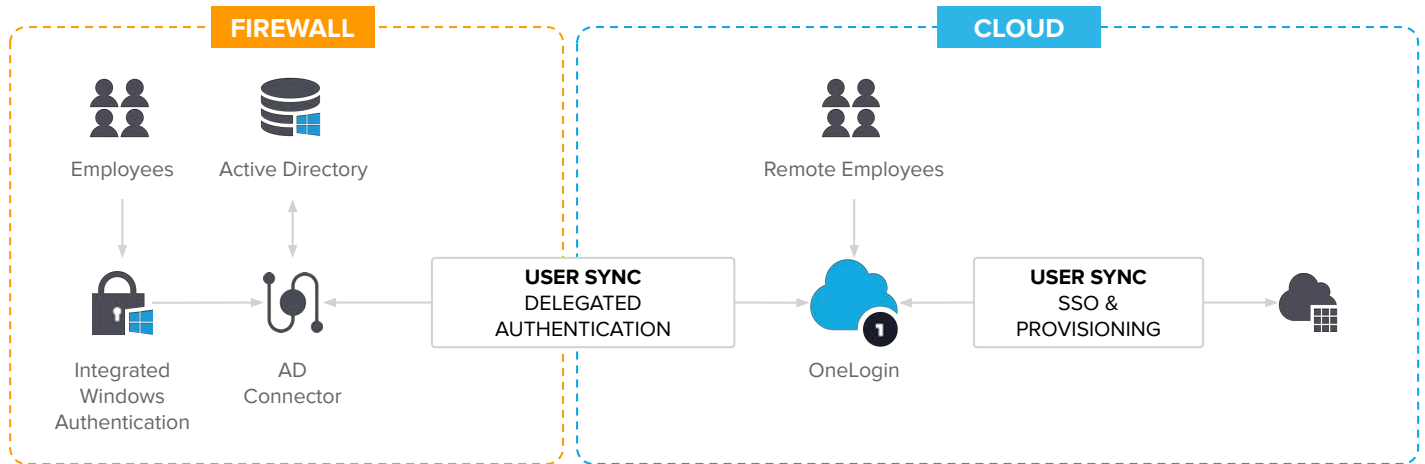

THE CARLYLE GROUP

## Integrates with Your Existing Directory Infrastructure

OneLogin acts as a secure, virtual directory in the cloud, allowing you to easily synchronize users across any number of directories, including Active Directory (AD), LDAP, Google Apps directory, OneLogin cloud directory, and HR directories. Import user attributes and pass them on to Box and other downstream applications via SAML or API-based provisioning.
